details*

Habitat (see notes for further details)

Habitat structure

density (qualifier 1)

detail (qualifier 2)

substrate (qualifier 3)

hydrology (qualifier 4)

notes

- shingle 1
- saltmarsh 2
- sand dune 3
- machair 4
- heath/moor, heather 5
- heath/moor, other 6
- [gorse 7]
- wetland, open water 8
- wetland vegetn., acid 9
- wetland vegetn., other 10
- wetland, acid bog 24**
- wetland, fen 25**
- wetland, carr/swamp 26**
- wetland, marsh 27**
- wetland, reedbed 28**
- wetland, edges of lakes & ponds, rivers & streams 29**
- grassland, calcicolous 11
- grassland, other 12
- grassland, neutral 30**
- grassland, acid 31**
- grassland, improved 32**
- rock eg scree, cliff, quarry 15
- post-industrial, unrestored mineral extraction sites/spoil heaps 33**
- post-industrial, abandoned buildings/ industrial infrastructure 34**
- [cultivated land, incl. gardens 13]
- arable 35**
- gardens, parks 36**
- buildings, indoors 14
- cave/tunnel/well/culvert 16
- [scrub 17]
- woodland, deciduous 18
- woodland, conifer 19
- woodland, mixed 20
- woodland, young conifer plantation 21
- other (Please specify) 23

- ground layer 1
- low vegetation <20cm 2
- field layer to 1-1.5m 3
- shrub and low canopy to 5m 4
- above 5m 5

- bare ground 1
- sparse veg. 2
- ? 3
- dense veg. 4
- varied mosaic 5

- in litter 1
- under stones, debris 2
- under bark 3
- aerial litter, birds nests etc 4
- on tree trunk 5
- fence 6
- wall 7
- on vegetation 8
- at plant roots 9
- herbage 10

- clay 1
- sand 2
- gravel/stony 3
- peat 4
- rock 5
- other 6

- dry 1
- wet 2
- temporary/periodic flooding 3
- freshwater - still 4
- freshwater - running 5
- brackish 6
- saline 7

6708 Araneae

* = VERY RARE SPECIES

ATYPIDAE

101 Atypus affinis

voucher	adult males	adult females
<input type="text"/>	<input type="text"/>	<input type="text"/>

9505 E. tecta*

voucher	adult males	adult females
<input type="text"/>	<input type="text"/>	<input type="text"/>

14301 Trichoptema cito*

voucher	adult males	adult females
